In a few words ...

Thanks to my experience in financial controlling, I was able to learn about programming. As I learnt by myself, I decided to have a strong background and discovered web development at 3W Academy. Rigorous and organised, I like to learn about new technologies. Finally, I am autonomous in my apprenticeship but I like to work in groups as I can learn from other experiences.

Hobbies

Sports

- Skying
- Rock climbing
- Swimming

Music

- I wrote reviews articles when I was in high school and started collecting vinyls since then. I volunteered for music festivals.

Cinema
